The above rather startling intelligence, which was given in our Monday's lasse as a part of our Cairo special dispatch, we find has been misconstrued into an item of news. It was the closing portion of an extract from the Memphis Assimachs, and is a fair specimen of what the rebels can do in the line of tytes. Of course it has not the slightest foundation in the two should not deem this explanation in the tiem was misconstrued, and it made to appear as news furnished by our Cairo reporter, who most certainly, when he hears of a fight between Federal regiments, will make a note of it.

Washikotok, April 29.—The Commission on Ordnance and Ordnance Supplies have, it is said, rejected all the foreign contracts, and considerably curtained those for the manufacture of arms in the United States.

The Orenance Office has issued proposals for nanufacturing, within one pear, Springfield r.fied muskets and Harper's Ferry riles, together with carbines, revolvers, sabres, swords and scabbards.

The Department reserves to itself the right to reject any bid, and to consider none made through any agent, broker or party other than the regular manufacturer.

Several days ago, the House passed a resolution directing the Secretary of War to communicate all the first and circumstances within his knowledge, relative to the late evacuation by our troops of Jacksonville, Florida.

The Secretary replies that he conceives it the province of the President to furnish information to oncerning military operations, but the President directs him to say that

A Mill Affecting United States Marhals and Other Officers.

[Washington Dispatch to the N. Y. Herald.]

Mr. Wade of Ohio Introduced in the Senate to-day a ball important to United States Marshals and their associates. Its provisions are, that all actions against marshals and other officers of the United States, founded upon ararrests of persons suspected of being engaged in, or adding the rebellion or securers of their property, tribs shall be had in the United States Circuit Courts, and not in State Courts. All such actions now pending may be transferred, at the option of the defendant, from the State courts to the United States Circuit Courts; all such causes now or bereafter pending may be post-poned from term to term, until the rebellion has been completely suppressed, and if, after the passage of this act, any private citizen shall cause an officer or servant of the United States to be arrested on process for a civil suit, for acts done in the discharge of his duty, such private citizen shall be adjudged guilty of a misdemeanor, and panished by the such private citizen shall be adjudged guilty of a misdemeanor, and panished by the such furprisonment. Parties aggrieved by acts of the United States officers may petition for their remedy to Congress.

The Rebel Officers at Columbus, Ohio. the evacuation was for reasons and connectible with the public interest to disclose.

The Hersial's special from Washington says there are rumors in circulation that the rebell are preparing to evacuate forkion that the rebell are preparing to evacuate forkion that he rebell are preparing to evacuate forkion that he rebell are produced to the rebell and the supering that stay in Palmonation recently received runders it pretty certain that there is a large rebel force in the neighborhood ready to dispute Gen. McDowells progress toward Richmond. Report pices this force under the command of Gen. G. W. Smith.

W. ASHINGTON, April 29.—There is a rumor that the Government is in possession of information which may possibly lead to a cessation of hostilifies. A mediation and compromise for the basis. The rumor is doubtful.

It is rumored that Gen. Cad-scallader is to take the place of Gen. Smith at the West.

Mr. Sedgwick, of New York, has been appointed on the House Committee on Combination of the Colls, declined. It is stated that a majority of the Committee have a strong bill for the confication of rebel property.

From Premont's Department.

AN ADVANCE OF THE GRAND THE PLOOD ON THE INCREASE.

FROM THE ARMY OF THE TENNESSEE.

St. Louis, April 29.—A centieman of this city, just retasued from Omaha, informs us that the recent troubles which the Overland Mail Company have experienced were not occasioned by the Indians, but by the Company's own employees. It appears the drivers of the overland coaches and other persons in the employ of the Company have not been padd their wages for several months. Disgusted with this state of affairs, they determined to seize upon the Company's property and thus obtain what belonged to them. Nearly all the available stock of the Company has thus been taken away. Our informati says the Indiana along the route are peaceably disposed, and thus far have done no injury to the roads or overland talegraph.

Salt Lake, April 29.—The report from St. Louis to day, a tirfibrating the Overland Mail difficulties to employees of the Company, is cutricly destitute of truth. Persons with whom we are personally acquainted have been in fights with Indiana. On the 17th, Mr. Flowers, division agent, nine men and two coaches with the mail, were attacked by Indians near Spill Rock. Six mall men were wounded, and compelled to abandon the mails, coaches and animals.

The Indians afterward burned Plants Station. The wounded party left.

The telegraph operator at Pacific Springs and another person had a fight with some fallows, and narrowly secaped. Their animals were hit several times with arrows.

The station Respect as Green River was killed by Indians a faw days since, while endeavoring to protect the mail property. Thus fagi four employees of the Company have been killed.

Although the greater part of the stock is gone, the employees remain. A force is being raised in this city by Brigham Young, under the authority of the President, for the protection of the fronter.

From Portress Monroe.

FORTHESS MONROE, April 29.—A flag of trues to day took despatches and letters for the Union prisoners. No newspapers came into the hands of the resporters of the press. The city of New Orleans has been taken by tife Union forces, the telegraph operators having left there, as previously reported.

No particulars have been received. It is stated, however, that the operators subsequently attempted to return, but found the city in possession of the Union troops. It is probable the city surrendered without resistance after the fluctuated its appearance. There is a report that the cusemy's mach-boasted iron gunboat built there as a second flurrimase, was, while on its way, destroyed by the U. S. steamer Fernacoia.

The weather and tide loady have been very favorable for the reappearance of the Merrimase here, but she has not been seen.

It is reported that some rebel gusboats in the James river attempted this morning to shell our camps this side of Warwick.

From the Pacific Coast, Gen. Murgis Excuses Rismself.

Leavenwourn, April 30.—In a circular just published, Gen. Stragis says the arrest of Col. Jennison was the result of representations made by Lieut. Colonel D. E. Arthony, of his own regiment and Col. Geo. W Deitsler, his immediate commanding officer, and was made at the enreset solicitation of the latter officer, who, is his appeal to me of the IBA list. demands his immediate arrest and charges him with the most grave and sortions crimes known to utilizary inv.

A New Confiscation HIII.

And besides all those, there is a loud cry of many voices, who proclaim that the army would have been entirely used up and crushed out, had not the gunboats steamed to its rescue and smatched it from annihilation.

Now the important truth, that all these conflicting claims for the grory of the victory prove beyond doubt, is, that all parts and divisions of the Army, and every arm of the service engaged, Gunboat, infantry, Cavalry and Artillery, fought with great bravery undendurance; that each one contracted of the crime shall be travery undendurance; that each one contracted of the crime shall be travery undendurance; that each one contracted of the crime shall be travery undendurance; that each one contracted of the Chilled States, and size ment, the goods, chatties, rights and credits of the person convicted of the crime shall be immediately forfeited, and sold at public sale for the benefit of the United States, and also the use of his real setate during its lifetime. Also, that when a true bill of indictment for treason has been found by a grand jury against a person not yet arrested, or who, having been arrested, has escaped, process of outlawry shall be issued, under the rules to be prescribed by the Supreme Court; and if not found and arrested after three months notice, their property shall be forfeited as aforesaid. The rights of such persons to service and labor of slaves is also forfeited, and the clares set free. This act is to apply to persons who

On the 15th mee., an unknown man was run over by the train, near Ains worth station, on the Michigan Southern railroad. He was, as we learn from persons with whom he consummer. He had been at wors, during the winter at Kahamano, chopping wood. He was about air feet in height, with light yellow hat said blue eyes; drassed in a grey cost with metal buttons and dark colored yest, pants and cap. His body was buried in the grave yard mer Ainsworth.

It was found, I have heard from an officer friend, impossible at first to bring three men under fire, and the 5th Missodri, Col. Peckham, being ordered to the front, passed by them at the charge, and soon took possession of the log house and the camp of the camp. This regiment picked up a large number of Kufield rides, which the rebels had thrown away in their flight. In the meantime our artillery shelled their posttion without provoking a reply, and as I hear with poor effect, as the pieces were unduly elevated and to friend the found to the found to the fire and timener, and their front being graduarly reduced to three quarters of a mile in the fire front and thinner, and their front being graduarly reduced to three quarters of a mile in the fire front and the fire and timener, and their front being graduarly reduced to three quarters of a mile in the fire front and the fire and timener, and their front being graduarly reduced to three quarters of a mile in the fire front and the fire front fr effect, as the pieces were unduly elevated and the fuses cut too short. Several soits of U. S. uniforms were also found. But two of our men were wounded in the affair. No rebel dead or wounded were found, but some ten or cleven prisoners were captured. I saw ten in one squad. They were generally fine fooking men, dressed either in buttermat or grey suits. Their arms were better than ours, being the celebrated English Endeld rifle.

As the cavalry returned from visiting the camp, it was mussing to see the plunder with which the troops were losded. Same had bolling pots, others the pass, others canteens, knapsacks, &c., while some were even loaded down with tent poles and the from stands which are used as supports for them. As he Hilpois troops filed by, an old sequalitation would occasionally hallo from the ranks, "Why,—a what are you doing down in this God-foresken country." &c., &c., The troops looked well and seesmed to feel well. In fact, as it was, on our park, the tht was reduced to the very simplest rules military tactics, that is to defend the sund as long as there is a man or a gun left. o be to divide our army into three parts— atflank the several positions and cut it up in detail. In this the enemy almost entirely ecceeded, and only failed in not closely fol-

I hear complaints that the gentlemen sent out by the Sanitary Commission of your city have not all done their duty. Some of them, it is reported to me, merely went out to some of the regimental and company camps to see their friends, and then returned home. Some of the companies here have not been visited, and know of the existence of the Commission only through the papers. These reports I get from one of the Commission, who will confirm the statement when he returns to your city. I was also charged by one of the Commission, whom I seeklentally met at Cairo, to make inquiries into the results of the Com-mission at this point. It is further charged that a portion of the supplies have never been received, or at least never been distributed at

point from Nashville, but is used exclusively for military purposes by the Government. In speaking of the condition of the camps, I forgot to mention that the stench from the bodies of the buried men and horses is intolwere placed in shallow trenches, and also lightly covered. Should the weather become warm, the result must be disease and death, to a frightful extent, at least if the main body of the army should remain here for any length There is a report that one of the commissary

teamers was captured by the rebels on her ray down the river yesterday; but it is doubt see one of the numerous canards which are onstantly on the wing in the camp. F.

Col. Jennison's Arrest and Relea Col. Jennison's Arrest and Relone.

[From our own Correspondent.]

St. Lotts, April 57th, 18gt.

Tour Kansas correspondent reached this
eity on Friday last, having left that State with
the family of Col. Jennison, who were proceeding to visit him. Feeling a deep interest
in these most outrageous proceedings against
our gallant "Jayhawker;" not only on account of the principles and results involved
in the matter, but also because of strong personal regard entertained for him, I determined
to come here in order to obtain a fair and
full statement of the case. My personal

growth, courage, convictions and heroism, he has displayed.

At Leavenworth, when we left, and in fact wherever the news had reached in Kannas, but one sentiment replied, and that was a feeling of deepest Indignation. The people are roused, and what they intend to do there, is most generally accomplished. They demand the removal of those drunken, pro-slavery Brigadlers and other officers who plot treason against freedom under the profecting eggls of the Government. Out with denernal Sturgis, Denver and Mitchel, Majors Prince and Easton, Captain Roy, and the remainder of the leeches who fatter in that military district. Out with them, or worse will come. Let me give you one instance of the feeling. Tour correspondent left Lawrence the morning after the arrest of Col. Jennison for Leavenworth, and between the two points met a half disten men riding fiectly to different sections in order to arouse the records. Ever one was going in sidiffer.

The shell being exploded by a deto-nating cap, also, where the timber is thick, will glean a more complete account than I whose correspondents I met in the fort, and besides I have later, and for the Sth Michigan regiments and its friends, more and news to write you. But I must be brief. This morn-

Leutenants Badger and Jennings, badly wounded. Vesterday morning, the 16th, we embarked on the transport Honduras, with seven companies of our regiment and a detachment of the Third Rhode Island Artillery, and one field piece for Winnington Island. You will notice by the map that it stretches well towards Savannah and is a large Island. We Isnded without seeing any of the onemy, but after advancing the akirmishers about a mile, ficing was board from them and soon the long roll was counded upon the Island at three points. The force advanced to the point of firing and engaged the enemy, about 800 strong, composing the 13th Georgis and a part of another regiment. The fight continued about two hours. The enemy was conceiled among the small pines and low palmetto shrubs, and had greafly the advantage of us. At last a charge was ordered upon our side and we disloged them driving their over a mile at a rus. The ground was covered with their dead bodies and they had been busy during the fight carrying off their dead and wounded. Guns, swords, and platein over a mile at a rus. The ground was covered with their dead bodies and they had been busy during the fight carrying off their dead and wounded. Guns, swords, and platein was placed to the standard of their dead and wounded from the steamer than twice their number. The whole number of men and officers who went upon the expedition was about 450—of these two companies were disambarked at an earlier point on the Island and sent in a different direction, and did not hear the contest at all, being six or seven miles distant. These two companies composed 117 men, so that the whole number upon our side was but a little over 300. The field piece was not taken from the steamer at all, or fired once. We brought off every dead body and all our equipments, returned to the steamer and lay during the angle in the l

DISCHARGED.—John C. McGregor, arrested me time since and charged with being an complice of the sallor, Henne, in picking ockets of the old man Crow, of the sun of \$60, while the latter was in a state of intor-ication upon the lake shore, was yesterday morning arraigned before Justice Davis, and after an examination, discharged from cus-

of Christopher Songer swore out a warrant at the Police Court yesterday afternoon for the arrest of his own son, a youth of eighteen, and a boarder in his house by the name or Jacobs, for an aggravated assault. It seems that the parties live on North Haisted street. The father is a laboring man. The son is a loafer. The father tried on Monday evening to induce his son to go to work, when the ther, son, and boarder pitched upon the old man and beat him to a jelly, the son using an iron wrench, which proved a knock-down arugment. But for the interference of by-standers Mr. Songer, senior, would have been

A Burack or Promise Case.—The Times, with its usual instinct and sharp scent for any-thing abnormal and disgusting, yesterday morning published about a column of solid ly, for some reason best known to himself, Mr. Lill thought proper to retract his promise, and set in a refusal to go to the hymenial altar with the woman he had ruined. He offered a money settlement. She indignantly refused. They quarrised. Lill was worth \$700,000. The ill-used lady sued before the Circuit Court upon a breach of promise, and placed her damages at \$50,000. Fearing that the defendant would put his property out of his hands, the Court compiled with the resement of the pulsatiff to have him held to ball.

each direction. The first story walls are en-tirely blank, well and substantially made of the class of timber which its name indicates. There is not a window, door or hole to be seen. The second story is fitted up as a guard room, and from this hatches open to the room below. By a ladder from this guard room the prisoners are lowered through the hatchway, and are left in that dark hole to sunse themand are left in that dark hole to some themselves as their surroundings may enggest. It may be readily understood that the

LAW INTELLIGENCE. . DISCHARGING MINORS.—The practice of dis charging young men from the army under the legal culisting age of eighteen years, was yes-terday ended in this vicinity by a decision rendered by Judge Thomas Drummond, of the United States Court. It would appear that a late set of Congress, passed February 13th, 1869, entitled an "Act making appropriations for completing the defenses of Washington, and for other purposes" had a clause attached

to it as follows:

SEC. 2. And be it further enseted, that the
5th section of the act of the 38th of September, 1850, providing for the discharge from
the service of minors enlisted without the consent of their parents or guardians, be and the
same is hereby repealed. Provided, That
hereafter no person under the gap of 18 shall be
mustered into the United States Army, and the
cath of cultisament taken by the recruit shall. The 5th section of the act of 1850 is as fol

It shall be the duty of the Secretary of War to order the discharge of any soldier of the army of the United States, who at the time of his enlistment was under the age of 21 years, upon evidence being produced by him that such enlistment was without the consent of his repeated or granding.

his parents or guardian.

This puts an end to a vexed question. It This puts an end to a vexed question. It may be thought harsh in its provisions, as under the late rendering of the law a youth of ten years, if once enlisted, could not be discharged from the service by the usual application for a writ of habeas eorpus. It will have a good general effect upon all future enlistments. Becruiting officers will not be troubled with boys, and if boys enlist they will not be able to play soldier a few months and then beer off by pleading the baby act.

This Court adjourned at ten o'clock, but re-sumed business again at 3 p. m. There will be no jury trials this week. The Superior Court will open for business

It gives us no less pleasure to announce than it will give all temperance men to know that the engagement of Dr. Charles Jewett, on behalf of the temperance cause in this State, is well nigh consummated. His present red-dence is in Minnesota, but in order to be nearwell nigh consummated. His present residence is in Minnesota, but in order to be nearer this particular field he will make Chicago his home and headquarters as soon as arrange-ments can be consummated to that end. with the conditions named. One half the number of patram have been secured in this city, and in response to a circular sent to other cities and many towns of the State, shares in this enterprise are being taken by gentlemen of wealth and liberality, as well as by churches and temperance associations. Over one-half of the cone hundred 45 starrs assigned to the country, or cities outside of Chicago, are now on the list, or piedged by responsible parties. Towns, Churches, or associations of any kind who purpose to secure a claim to a share in the lishors of this distinguished, popular and most successful advocate of temperance, must have their names entered for a share of this stock soon.
